***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 30, 31,33-35, and 36-56 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claim preamble a "financial terminal" is vague and indefinite with respect to what essential structure is inherent thereto."

Claims 54 is indefinite in scope as it is not clear what components are essential to an automatic teller machine.

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless —

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claims 30,31,33,34 and 35-50,52,53 are rejected under 35 U.S.C. 102(e) as anticipated by US Patent 6,584,309.

The reference at column 1, lines 54-58, teaches claim 30, line 1. Moreover, at column 1, lines 14-26, the reference teaches claim 30, lines 3-4. The examiner interprets valuable media to include any

information printed on the vended item. The same disclosure and elsewhere teaches the first and second limitations of claims 33-34. In addition, the reference teaches claims 31 and 35, at column 2, lines 28-32.

The applicant's arguments directed to that a "financial terminal" have been considered but are deemed unpersuasive as the term is within the preamble and does not expressly limit the claim. The argument directed to claim 36 has been considered but deemed unpersuasive in that the reference clearly teaches that the keypad is optional. With respect to the limitations as found in claim 39-41, the applicant is reminded that the claims are directed to a terminal. The applicant has not expressly claimed that the terminal comprise the currency, bank notes or ski passes. In addition, the examiner takes official notice that stamps are routinely sold in vending machines.

Claims 51,54,55 and 56 would be allowable to amended to overcome the 112nd rejections.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
